GainSeeker® Suite Training Course:

# SPC Chart Types and Statistical Options

## Maximizing value

The *GainSeeker SPC Chart Types and Chart Options* class takes a detailed look at each of the SPC charts offered in GainSeeker. Participants will become more familiar with the available charts and the different charting options offered to them. Afterwards, participants can use the knowledge gained in this course to more fully utilize the charting capabilities in GainSeeker to better analyze your data.

## Course content

*SPC Chart Types and Chart Options* addresses the following topics:

- Interpreting SPC data using the different charts available in GainSeeker
- Change options available for specific charts
- Splitting multiple charts into individual charts
- Changing chart display options such as background color and labels

## Who should attend

Recommended attendees:

- System Administration / Technical Lead
- Data Analysis

## Prerequisites for this course

Recommended:

- Intermediate SPC Charting

## Course duration

1 hour

## Scheduling
